

With the user modified label commands for the first two level of the enumerate environment, the corresponding labels occur now as follows:

- (I) The labels for the first level are roman capital numerals enclosed by parenthesis.
 - I-1 The labels for the second level are the roman numerals of the first level followed by the number of the second level, separated by a medium dash.
 - I-2 Here is the next label of the second level.
 - I-3 Followed by the third label of the second level.
- (II) And back now to the second label of the first level.
 - II-1 And again at the second level with the combined roman numeral and the actual label number of this level.
 - II-2 And so one for continuously labels of this label
 - II-3 as demonstrated here for the third label
- (III) And back now to the next label of the first level
- (IV) before we leave the enumerate environment.
